Marcel Scognamiglio

Frontend Developer | Startup adventurer | AI (GPT-3) and Blockchain

São José dos Campos

Resumo

Hi, I'm Marcel.

Developer, Reseacher And Teacher Of Systems And Web Interfaces (Front End Guy), I Love To Build, Disassemble And Rebuild Things Using Code*.

I'm 31 years old, almost 10 as web entrepreneur building apps and websites for startups as partner or providing full web dev services on my own dev agency NÓS, in Brazil.

As a developer, I've had the opportunity to work with senior designers and developers from all around world who have upped my expectations of what a web application should be.

Fortunately, I've been able to construct, rebuild, remix, and develop a variety of things during this time utilizing various languages, libraries, and frameworks. And the cooperation experience made my code more robust, maintainable, and well documented on a daily basis.

I recognize the need of refactoring and continuous code improvement for the greatest readability, reuse, and structure. To be honest, I feel a little more serene every time I make a commit that makes things better.

Experiência

agência NÓS
